

**WATERLINE REPLACEMENT AND STREETSCAPE  
PROJECT UPDATE AS OF  
WEDNESDAY, SEPTEMBER 11, 2019**

The milling-down of the street has begun at Trojan Avenue to the main intersection at US 21 & NC 18. This work will be accomplished today.

On Thursday morning at 8 a.m., the contractor will begin digging the line and installing the new waterline, beginning at the intersection of Trojan Avenue, and proceeding to the main intersection. There will be periods of traffic delay while the waterline is laid through the intersection of Main and Trojan.

Road construction signs and detour signs have been placed and installed at locations along US Hwy 21. This is being done to encourage the use of the Sparta Parkway for traffic that is just passing through town. Message boards are placed on each end of Sparta Parkway, showing roadwork ahead and for traffic to follow the detour.

The Main Street is open for business for anyone who needs to do business in town and all businesses are open for their regular business hours.

During this time, the center lane will be utilized to maintain two-way travel for traffic. This will minimize the need to stop traffic. Some parking spaces will be blocked at this time for the contractor to work.

The construction for the new waterline will begin at Trojan Avenue and move south. This work is now underway.

As soon as more information is available, it will be posted.

Thank you for your patience, cooperation, and understanding as we get underway with the construction of the new waterline.

If you have questions or need assistance, please feel free to call the town office. Give your name and phone number and your question to the ladies at the front desk and I will return your call as soon as possible. Bryan Edwards.
