

**WATERLINE REPLACEMENT AND STREETSCAPE
PROJECT UPDATE AS OF
Saturday, December 07, 2019**

Update on construction project completed to date:

- The new waterline is installed from Trojan Avenue to Grandview Drive. From Trojan Avenue to Whitehead Street all service connections are operational.

Construction schedule for the week of December 9th will be dependent upon the weather, as the forecast is calling for rain and very cold weather. Work will proceed as the weather allows, as follows:

- Storm drain construction will begin at Doughton Street, going south toward the Jubilee. The construction will occupy the parking spaces from Jubilee to Doughton Street.
- The waterline service connections from Grandview to Whitehead Street will begin on Monday, December 9th. This work will take a couple of weeks, weather dependent.

Traffic patterns will be similar to last week, with the center lane being used as a travel lane as necessary.

Construction schedule for the week of December 16th:

- Construction of the storm water drainage on north side of Whitehead Street will continue.
- Service line connections from Grandview Drive to Whitehead Street will continue.

More specific details of the construction schedule will be published as soon as possible.

The Main Street is open for business. All businesses are open for their regular business hours and many businesses will have extended hours over the next two week.

Thank you for your patience, cooperation, and understanding. If you have questions or need assistance, please feel free to call the town office. Give your name and phone number and your question to the ladies at the front desk and I will return your call as soon as possible. Bryan Edwards – 336-372-4257
