

**STREETSCAPE  
PROJECT UPDATE AS OF  
Monday April 20, 2020**

We have entered a new phase of construction for the streetscape project. We have begun the demolition on the north-side, from Whitehead Street to just past Doughton Street. This demolition also includes the demolition phase of the sidewalks.

**MONDAY, April 20, 2020**

**Main Street is CLOSED, from Whitehead Street to north of Doughton Street. This closure will continue until new sidewalks are complete.**

- **WHITEHEAD STREET will remain open to traffic at this time.**
- **DOUGHTON STREET WILL BE CLOSED.**
  - **Major demolition work is underway, just north of Doughton Street, near Glade Creek Animal Hospital, 122 North Main Street, and continues south toward Whitehead Street. All asphalt paving and sidewalks have been removed down to sub-grade.**
  - **Curb and gutter have been completed; electrical conduit has been installed. New sidewalks will be constructed, beginning this week.**
  - **All local traffic will be detoured around the construction zone, using Trojan Avenue & Cox Street, the Sparta Parkway and other town streets.**

Temporary sidewalks and temporary access to businesses will be maintained.

The construction work on North Main Street will continue toward Whitehead Street until complete. I will be providing regular updates on the construction schedule.
