

**STREETSCAPE
PROJECT UPDATE AS OF**

Thursday, September 17, 2020

Main Street is Open for Business

The main intersection of US 21 and NC 18 opened to traffic on Wednesday evening.

There remains some paving and paint stripping that will need to be done; traffic will be ‘flagged’ around any work zones.

The rain today will delay any further work today, but on Friday, the paving and stripping will continue.

The remaining paving work includes the town parking lot and ABC Store parking lot on North Main Street; also, additional paving to ‘tie-in’ the connecting streets and driveways to Main Street.

- **All local traffic will be detoured around the work zones as needed.**

Sidewalk construction is complete.
